

Fly Aeolus Air Taxi

Your ultimate freedom

Aircraft Investment Summary

Hassle free travelling with your own
aircraft and pilot!

Buying time with this ultimate business tool
for corporate jet-setters and luxury travelers !

Problem

- Commercial airlines fly on a limited number of destinations in Europe.
- Passengers are expected to be present at the airport between 2 and 3 hours before departure.
- People travel to larger airports. These are at a greater distance from the original or final destination.

Advantages of your own aircraft

- No check-in times!
- No waiting times at the airport!
- No issues with last minute changes!
- Land closer to your final destination!
- No delay's!
- Available whenever and wherever you want!

Full flexibility!
